

LAUNCH REPORT

THREE OAKS 1.03.09

Probably the most important aspect of this launch is that there was one. The December 27 launch was moved to the 28th and that was cancelled and moved to January 3. Finally persistence paid off. The turnout was not as good as the weather would seem to indicate. It was breezy with some clear skys and the temps weren't that bad. It was, after all, January in Michiana.

Another note: The launch was done without the Prefect present. Special thanks to Michael Adams, Blane Hillman, Bert Wise, Dave Brunsting and others I may not know about. Also there were no photos to use for this report.

There were some members that renewed their memberships plus a new member joined. And there were Michiana Rocket Wear purchases (see our website). There also appeared to be some flyers that were at one of our launches for the first time. 19 registered flyers had 39 flights.
