Important stuff here so please read...
everything!

Joint Fall Launch

Please note that the Team1 launch scheduled on November 5th through 7th is a JOINT LAUNCH between our clubs again. This means we need volunteers! And lots of them! I told Team1 we would do our very best to bring out as many volunteers as we can. Here are the following things we need help with:

- Towing the club trailer from Michael's house near Chesterton to the field on the 5th. Not sure if Michael is available but we need it there then. We will also need it towed about 3 miles away after the launch.
- Signing up for LCO, RSO, registration, etc. This can be done through Team1's web site at team1.org

FYI, we will also have an astronomy club in attendance at this launch on Saturday. Let's do our best to make them feel welcome.

The waiver for this launch will be 12k AGL.

Members Only Certification Seminar

On October 16th, there will be an opportunity to gather at Red Arrow Hobbies for an informal certification seminar. If you are getting your L1 or L2 this season and want advice from "seasoned" veterans come on down to the store at 10am. This will go until noon and whoever wants to we will order out for lunch. Expect to hopefully see more events like this next year during the summer months.

Science Alive

On February 5th I have volunteered to represent our club at a Science event held at Saint Joseph County Public library in Indiana. I am going to set up a display with some rockets. Please consider volunteering with me at this event. I am told there are literally thousands of people that come to this. More details will be coming.

Nominations

It's that time of year again where we need nominations for the upcoming year. If you would like to volunteer to be Prefect, Vice Prefect or Secretary/Treasurer please let either myself or Derrick Adams know by 10/31/10.

Annual Membership Meeting and Dinner

On Saturday November 6th at 6 pm, we will have our annual membership meeting and dinner at the same time. This will be at El Rancho Grande in New Buffalo. Getting there is easy, take US 12 from the launch site west past I-94. At Red Arrow highway turn left and the restaurant will be about one mile down on the right. This location was picked so we could eat together and this location and at no cost to the club.

That's all for now!

Dave Brunsting
Vice Prefect
